ReLeaf

Smart platform that connects institutions such as universities , courts and organizations with nearby recycling centers to simplify paper waste collection and recycling processes

Prepared by:
Mayar Alajrami | Raneem Alwtikat | Raghad Ahmad

The Problem

Large institutions generate huge amounts of unused and damaged paper every day. Most of this paper is either improperly discarded or stored without an efficient recycling process, leading to environmental waste and increased operational costs.

Main Challenges

1. Limited access to recycling centers
2. Inefficient communication with recyclers
3. Lack of pickup and delivery tracking
4. Environmental impact of paper waste

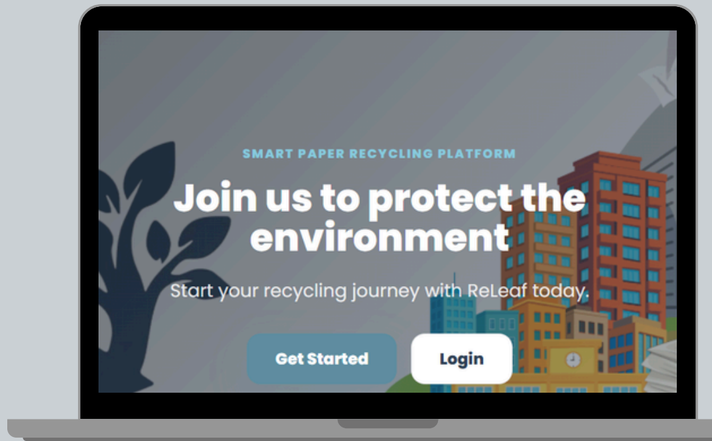
Our Solution

Releaf provides a digital platform that allows institutions to:

1. Easy submission of recycling requests
2. Efficient paper waste management
3. Connect with nearby recycling centers
4. Real-time tracking for requests and deliveries

Key Features

1. Simple and efficient request management
2. Eco-friendly waste management
3. Seamless communication between parties
4. Organized pickup and scheduling system



Impact & Benefits

ReLeaf creates a positive impact on the environment and helps institutions work smarter and greener

Environmental Impact

1. Reduces paper waste pollution
2. Encourages sustainable recycling practices
3. Supports environmental awareness

Institutional Benefits

1. Saves time and effort
2. Organizes recycling operations efficiently
3. Provides a simple and user-friendly system

Future Vision

Releaf can later expand to recycle

Plastic

Electronics

Metal waste

1 ----------> 2 ----------> 3 ----------> 4 ----------> 5

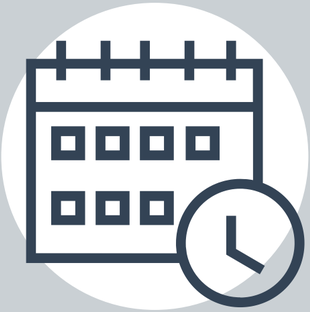
List your paper waste

Register your institution and add details about the type and amount of paper or carton you have

Match with Recycling Centers

we match your request with the best recycling center near you

Schedual pickup



Choose a convenient date and time for collection that fits your schedule

Collection & Transport

The recycling center collects your paper waste and transports it responsibly

Recycling for a better future

Your paper is recycled into new products, reducing waste and protecting our planet

Conclusion

Releaf is more than just a recycling website.
It is a smart environmental solution that bridges the gap between institutions and recycling centers using technology.

By simplifying recycling processes, Releaf contributes to building a cleaner, greener, and more sustainable future.

Thank you

Together, let's ReLeaf our planet for a better tomorrow.
